

Yaksh Jain

Student at Techno India NJR Institute of Technology

✉ yakshjain565@gmail.com ☎ +916377724990 📍 Udaipur 🌐 LinkedIn

PROFILE

Dedicated **MERN Stack and Python Developer** with hands-on experience in building full-stack web applications and Python-based computer vision projects. Passionate about developing scalable applications, learning new technologies, and solving real-world problems through clean and efficient code.

PROJECTS

Scan N Dine (QR-Based Restaurant Menu System)

- Developed a digital restaurant menu system using QR codes
- Customers can scan QR codes to view menu items digitally
- Built admin functionality to manage food items and categories
- Implemented backend APIs using Node.js and Express.js
- Used database integration for storing menu and order data

Vehicle Detection and Counting System

- Designed a Python application to detect and count vehicles from video streams
- Applied computer vision techniques for real-time object detection
- Created a user-friendly GUI using Tkinter
- Used efficient algorithms to track and count vehicles accurately

SKILLS

- Programming Languages: Python , JavaScript
- Web Technologies: HTML5 , CSS3
- Databases: SQLite , MySQL ,MongoDB
- Frameworks & Libraries: React.js, Node.js , Express.js
- Tools & Platforms: Git & GitHub , VS Code , Tkinter , REST APIs

EXPERIENCE

MERN Stack Training

Nov 2025

Techno India NJR Institute of Technology

- Completed hands-on training in **MongoDB, Express.js, React.js, and Node.js**
- Built full-stack web applications using the MERN stack
- Developed RESTful APIs and integrated frontend with backend services
- Implemented CRUD operations and basic authentication workflows
- Worked with databases to store and manage application data
- Used Git and GitHub for version control during project development
